## Summary

The table below is set out in the order I wish to present my oral summary to the Hearings Panel.

I do not wish to present evidence in addition to that of my submission. The reasons for this brevity are:

- I do not wish to present rebuttal evidence,
- there has been no mediation, and
- the s42A report did not directly address any of my submissions and the reasoning supporting those submissions.

It is important that the Hearings Panel read my submission in order to understand the context and reasoning supporting the submission, rather than to rely on the summary submission points.
