Content of Farm Environment Plans (FEP) is set out in Schedules 1 and 2

The FEP “*must be set out to have clear specific minimum standards for farm practice*”

BUT

1. *Consistent targets and consistent performance requirements?*

no minimum standards are set in the FEPs or the rules  
– e.g. effluent storage, culvert sizes, overseer assumptions

FEPs refers to Codes of Practice.

These aren't written in compliance language.

2. *Consistent format and consistent coverage of processes?*

required content is not specified - “minimise”
